The page that opens will show your team roster. To the far right of the page, there is a column titled ACTIVE with defaulted check marks by all names. To deactivate a player for any given upcoming game, uncheck the active box next to that players name. Game day lineup sheets will only show 18 available for a game so deactivate players until you have 18 or less active. You can add players back to the roster by putting the check back in their box. When you deactivate or reactivate players, click on the **“Set Active Players”** button. **Once finished, follow the instructions for printing your game day lineup sheet.**
